Program Funding Descriptions - Map on Page 6

ACEP - [Agricultural Conservation Easement Program](#)

<http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/easements/acep/>

The USDA Agriculture Conservation Program provides financial and technical assistance to help conserve agricultural lands and wetlands and their related benefits. Under the Agricultural Land Easements component, NRCS helps Indian tribes, state and local governments and non-governmental organizations protect working agricultural lands and limit non-agricultural uses of the land. Under the Wetlands Reserve Easements component, NRCS helps to restore, protect and enhance enrolled wetlands.

AWEP – [Agricultural Water Enhancement Program](#)

<http://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/programs/financial/awep/>

The USDA Agricultural Water Enhancement Program (AWEP) is a voluntary conservation initiative that provides financial and technical assistance to agricultural producers to implement agricultural water enhancement activities on agricultural land for the purposes of conserving surface and ground water and improving water quality.

CREP – [Conservation Reserve Enhancement Program](#)

<http://www.in.gov/isda/2377.htm>

The Conservation Reserve Enhancement Program (CREP) is a federal-state natural resources conservation program that addresses agricultural-related environmental concerns at the state and national level. CREP participants receive financial incentives to voluntarily enroll in the Conservation Reserve Program (CRP) in contracts of 14 to 15 years. Participants remove cropland from agricultural production and convert the land to native grasses, trees and other vegetation.

CRP - [Conservation Reserve Program](#)

<http://www.fsa.usda.gov/programs-and-services/conservation-programs/conservation-reserve-program/index>

The USDA Conservation Reserve Program is a land conservation program administered by the Farm Service Agency (FSA). In exchange for a yearly rental payment, farmers enrolled in the program agree to remove environmentally sensitive land from agricultural production and plant species that will improve environmental health and quality. Contracts for land enrolled in CRP are 10-15 years in length. The long-term goal of the program is to re-establish valuable land cover to help improve water quality, prevent soil erosion, and reduce loss of wildlife habitat.

CSP - [Conservation Stewardship Program](#)

<http://www.nrcs.usda.gov/wps/portal/nrcs/main/in/programs/financial/csp/>

The USDA Conservation Stewardship Program is a voluntary program that encourages agricultural producers to improve conservation systems by improving, maintaining, and managing existing conservation activities and undertaking additional conservation activities. The Natural Resources Conservation Service administers this program and provides financial and technical assistance to eligible producers.

CWI – [Clean Water Indiana Program](#)

<http://www.in.gov/isda/2379.htm>

The Clean Water Indiana Program was established to provide financial assistance to landowners and conservation groups. The financial assistance supports the implementation of conservation practices which will reduce nonpoint sources of water pollution through education, technical assistance, training, and cost sharing programs. The CWI fund is administered by the Division of Soil Conservation under the direction of the State Soil Conservation Board.

Program Funding Descriptions - Map on Page 6

EQIP - [Environmental Quality Incentives Program](#)

http://www.nrcs.usda.gov/wps/portal/nrcs/detail/in/programs/?cid=nrcs144p2_031015

The USDA Environmental Quality Incentive Program is a voluntary conservation program that helps agricultural producers in a manner that promotes agricultural production and environmental quality as compatible goals. Through EQIP, farmers and ranchers receive financial and technical assistance to implement structural and management conservation practices that optimize environmental benefits on working agricultural land.

EWP – [Emergency Watershed Protection](#)

<http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/landscape/ewpp/>

The USDA Natural Resources Conservation Service (NRCS) administers the Emergency Watershed Protection (EWP) Program, which responds to emergencies created by natural disasters. It is not necessary for a national emergency to be declared for an area to be eligible for assistance.

GRP - [Grasslands Reserve Program](#)

<http://www.fsa.usda.gov/programs-and-services/conservation-programs/grassland-reserve/index>

The goal of the Grasslands Reserve Program is to prevent grazing and pasture land from being converted into cropland, used for urban development, or developed for other non-grazing uses. Participants in the program voluntarily limit future development of their grazing and pasture land, while still being able to use the land for livestock grazing and activities related to forage and seed production. Participation in GRP may also entail restrictions on activities during the nesting season of certain bird species that are in decline or protected under Federal or state law.

IDEM Section 205j - [Clean Water Act Section 205\(j\)](#)

<http://www.in.gov/idem/nps/2525.htm>

The federal Clean Water Act Section 205(j) provides funding for water quality management planning. Funds are to be used to determine the nature, extent and sources of point and nonpoint source water pollution problems and to develop plans to resolve these problems.

IDEM Section 319 – [Clean Water Act Section 319\(h\)](#)

<http://www.in.gov/idem/nps/2524.htm>

The federal Clean Water Act Section 319(h) grant program provides funding for various types of projects that work to reduce nonpoint source water pollution identified in the [Indiana State Nonpoint Source Management Plan](#). Funds may be used to conduct assessments, to develop and implement watershed management plans, to provide technical assistance, to demonstrate new technology and to provide education and outreach. Entities eligible for funding include nonprofit organizations, universities, and local, State or Federal government agencies. A forty (40) percent non-federal in-kind or cash match of the total project cost must be provided.

INFA – [INfield Advantage](#)

<http://infieldadvantage.org/>

The INfield Advantage is a group of crop producers interested in economics, stewardship, and reducing their environmental footprint. The goal of INfield Advantage is to advance two critical components to driving improved farm-level performance including access to and education on the use of effective, affordable tools and strategies to assess and verify on-farm environmental and economic performance, as well as coordination of data collection, analysis, and feedback to farmers using these tools at the individual farm level and in aggregate across multiple farms in a geographic region. Infield Advantage is paid for by Indiana Corn and Soybean check-off funds.

Supporting Tabular Data for 2016 ICP Conservation Accomplishments

Program Funding Descriptions - Map on Page 6

LARE – [Lake and River Enhancement Program](#)

<http://www.in.gov/dnr/fishwild/2364.htm>

The goal of the Division of Fish and Wildlife's Lake and River Enhancement Section is to protect and enhance aquatic habitat for fish and wildlife, to insure the continued viability of Indiana's publicly accessible lakes and streams for multiple uses, including recreational opportunities. This is accomplished through measures that reduce non-point sediment and nutrient pollution of surface waters to a level that meets or surpasses state water quality standards.

WHIP – [Wildlife Habitat Incentive Program](#)

http://www.nrcs.usda.gov/wps/portal/nrcs/detail/in/programs/?cid=nrcs144p2_031021

The USDA Wildlife Habitat Incentive Program is a voluntary program for people who want to develop and improve wildlife habitat primarily on private land. Through WHIP USDA's Natural Resources Conservation Service provides both technical assistance and up to 75 percent cost-share assistance to establish and improve fish and wildlife habitat. WHIP agreements between NRCS and the participant generally last from 5 to 10 years from the date the agreement is signed.

WRP – [Wetlands Reserve Program](#)

http://www.nrcs.usda.gov/wps/portal/nrcs/detail/in/newsroom/releases/?cid=nrcs144p2_031028

The USDA Wetlands Reserve Program is the Nation's premier wetlands restoration program. It is a voluntary program that offers landowners the means and the opportunity to protect, restore, and enhance wetlands on their property. The USDA Natural Resources Conservation Service (NRCS) manages the program as well as provides technical and financial support to help landowners that participate in WRP.
